

Accelerate

\$499 one-time setup · \$599/month · Most popular

Turn searches into traffic.

Everything in Growth, plus we put money to work: two managed Google Ads campaigns, doubled content output, and a monthly strategy call.

1. Everything in Growth

All Launch and Growth deliverables continue.

2. 2 Managed Google Ads Campaigns

We set up and hands-on manage two ad campaigns, tuned weekly.

Ad spend is not included — you choose your monthly Google Ads budget and pay Google directly. We make every dollar of it work.

3. 20 Google Searches Monitored

Double Growth's coverage of the searches that matter to you.

4. 8 Google Posts and 4 Promotional Offers Every Month

Your profile posts twice a week, and every week brings a fresh customer offer.

An always-active profile with always-current reasons to choose you.

5. 8 Social Posts a Month, With AI-Assisted Content

We produce and publish two posts a week with AI-assisted photo and video content.

Professional-grade visuals produced with AI from your brand, your direction, and assets you provide — not an on-site camera crew.

6. Advanced SEO and Content Creation

We map your services and locations for Google and create the content to rank for them.

7. Competitor Monitoring

We watch what your competitors are doing — rankings, reviews, offers.

You'll know what they're up to before your customers do.

8. Monthly Strategy Call and Priority Support

Every month we walk you through results and agree next moves. Your requests jump the queue.

Advanced analytics dashboard and monthly report included.

What this means for you

This is the plan where Google starts sending you customers instead of just listing you. Ads drive traffic, content converts it, and we course-correct together every month.

INCLUDED — ACCELERATE

Everything in Growth	✓
Managed Google Ads campaigns	2
Google searches monitored	20
Google posts	8/month
Promotional offers	4/month
Social posts (AI-assisted content)	8/month
Competitor monitoring	✓
Strategy call	Monthly
Priority support	✓

Important: Accelerate includes campaign management for 2 campaigns. Ad spend is not included in any plan — you choose your monthly Google Ads budget and pay Google directly. Automated review requests are powered by our AI voice service and require an active AI receptionist subscription (any plan).
